

## JOIN US FOR A DISCUSSION ABOUT INTEGRATING ENVIRONMENTAL HEALTH TOPICS IN ADULT ESL

This 2-hour presentation will focus on immigrant health and environmental health issues. Local ESL and health practitioners will share classroom activities, online resources, and a fotonovela series that encourage learners to take a critical look at the complexity of environmental health information (specifically, lead poisoning) and to give them a say in how prevention messages are communicated.

**Friday, May 22, 2009  
3:00pm – 5:00pm**

**Salinas Adult School, Room S1  
20 Sherwood Place, Salinas, CA**

**Light refreshments provided. Limited space available.**

**To register for this event, please contact:**

**Ashley Richards, Project Coordinator**

*Thanks to the Salinas Adult School for providing space for this event.*

This presentation is part of an Adult ESL Study Circle entitled “*Healthy Connections: Linking ESL Curriculum, Immigrant Wellness, and Transnational Identity*”, a professional development series sponsored by the Center for Immigrant & Refugee Community Literacy Education (CIRCLE) at SF State University, UCSF Center for Vulnerable Populations at San Francisco General Hospital, and Literacyworks. This project is supported by a grant from The Public Health Trust. For more information about the project, please contact: Maricel Santos, [mgsantos@sfsu.edu](mailto:mgsantos@sfsu.edu)
